Can you help us solve the mystery?

Parents/ carers and family members are invited to our Science and Maths fun day, **Friday 4 September 2015**. Students will be involved in a range of activities to solve the mystery of the missing box of Mars Bars. Activities will incorporate the use of scientific and mathematical skills and knowledge.

Activities will start at **9:30am – 2:20pm**. Visitors are welcome to stay for one or all of the activities. Students will work with their classmates at each activity. Visitors are encouraged to support students and join in, without solving the mystery for students.

Visitors are also welcomed to enjoy a picnic lunch with students.

We look forward to your support.
